

PASSENGER CAR ENGINE OIL

National Full Synthetic[®] dexos1[™]

National Full Synthetic[®] dexos1[™]

Taking Care of Your Engine

National Full Synthetic dexos1[™] engine oils are the top performers in engine protection, ensuring smooth operation according to the manufacturers' specifications and prolonged engine life. Combining the most advanced additive packages and viscosity modifiers, and blended with synthetic base stocks, National Full Synthetic dexos1[™] delivers performance that exceeds even the most stringent OEM requirements.

Designed and tested for use under the most severe operating conditions, these oils provide:

- Industry leading engine cleanliness
- Outstanding wear protection
- Enhanced oxidation protection
- Reduced environmental impact
- Turbo protection
- Flex-fuel capability
- Fuel economy performance

Registered by General Motors as a dexos1[™] certified product and licensed as API SN-Resource Conserving, National Full Synthetic dexos1[™] meets or exceeds the requirements set by the following manufacturers: Ford, Chrysler, Toyota, Honda, Nissan, Hyundai, Kia, Mitsubishi and Mazda. In the most demanding applications, including extreme weather conditions and engine equipment with turbochargers, rely on National Full Synthetic dexos1[™] for outstanding engine protection.

Synthetic Base Stocks

Superior quality base stocks, manufactured in state-of-the-art petrochemical facilities, provide world-class lubricant performance in gasoline fueled engines. These lubricant stocks are inherently more oxidatively and thermally stable when compared with conventional base stocks. Improved wear performance and reduced oil consumption are the result.

Unique Tri-nuclear Molybdenum Chemistry

National Full Synthetic dexos1[™] engine oils feature a unique tri-moly compound. This molybdenum-based chemistry contributes to engine performance and durability by reducing friction and increasing the oxidative stability of the oil. Sliding friction and its associated wear, as well as oil thickening due to oxidation, are reduced.

Global OEM Performance

Compared with other GM dexos1[™] and API SN-RC oils in the marketplace, National Full Synthetic dexos1[™] performance far exceeds minimum requirements of the GM specification, and sets a new standard for engine cleanliness.

Performance in the Sequence III GA test even surpasses the minimum requirements of the Corvette GM 4718M specification.

Specifications National Full Synthetic[®] dexos1[™] meets these performance requirements

by viscosity grade:

- GM dexos1[™]
- DaimlerChrysler MC63955
- Ford WSS-M2C946-A
- API SN and SM
- GM 4718M
- ILSAC GF-5 and GF-4
- GM 6094M
- API Resource Conserving
- Ford WSS-M2C945-A
